**DETAILED ACTION**

***Claim Rejections - 35 USC § 112***

Claims 1-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In particular, the original specification does not provide support for recycling a portion of the recovered proteins and adding water to replace water removed with said flavor compounds. Rather, the original specification (page 13) provides support for only "recycling of separated water". In addition, there is no reference to adding water (in general) or adding water specifically to replace that removed with said flavor compounds.

***Claim Rejections - 35 USC § 103***

Claims 1-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Goodnight, Jr. et al (U.S. Patent No. 4091120) taken together with Malzahn.

The claims stand rejected for the reasons set forth in the last Office Action (mailed 10/1/04) and further including the following:

The claims further call for said product being made by a process which further includes a portion of solubilized soy proteins recovered from the ultrafiltration membrane being recycled and that water is added to replace water removed with said flavor compounds. Goodnight, Jr. et al further discloses treatment by diafiltration ("a form of ultrafiltration", col. 4, line 55) wherein water is added to the retentate and same is further filtered to remove more carbohydrates and thus provide a product as called for in the instant claims. In addition, it should be noted that

Goodnight, Jr. et al replaces water removed during the filtration process at the same rate as permeate is produced (e.g. Example 1), thereby replacing water removed with the flavor compounds.

***Response to Arguments***

Applicant's arguments filed 3/1/05 have been fully considered and are addressed in view of the rejections as set forth above.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
